We see that our neighbors, the Canadians, are sorely exercised to think that we Yankees have the temerity to celebrate Perry's Victory at Put-in-Bay. Well, it isn't polite, but then we have a bad habit of doing things in our own way, and the Canucks had better bear with our infirmities than to distress themselves about them. Since we have made up our minds to do the old Commodore the handsome thing, by celebrating his victory on the Canada shore, it wo'ld be just like us to do so, though it should rile our neighbors bile-even to nauses.

22 The Primary and Intermediate departments of our Union School will open on Monday next. The Board have not yet employed a Superintendent, but proper efforts are being made in that direction. We hope they will succeed in securing the services of some person who will make Perrysburg his home. The money paid to teachers should, as far as possible, be kept at home and expended with our own business men. We have already had quite enough carried off to other places. Aside from this consideration, there are many reasons to favor the employment of a Superintendent who will locate with us.

We see by the last Democrat that the departed spirit of the distinguished ex-School Examiner has been "exhumed" and turns up "trump" among the elite of crinolinedom, and was employed to kick the ghost of the old and faithful little Swift, on a recent occasion. We understand the occasion was postponed several weeks in order to secure the distinguished services of the aforesaid distinguished individual, his habits pointing him out as the man for the occasion! The lion's skin, in this instance. as in all others, failed to destroy the wearer's identity. Such sapient speeches should often be repeated-they are so creditable to the literature, wisdom, and good taste of a community!

Lilly Larkspur has favored us with another poem, which possesses a high degree of merit .-Lilly is a fine writer, and we are gratified at this evidence of her ability to rise above the low, scurrillous abuse which has been resorted to, by the curs that bark around the tainted atmosphere of Big Bone Lick. What they meant for slander is her highest praise; and they will soon learn that the baying of a dog at the moon never turned it had a young man residing 18 miles from this aside from its appointed course.

Tremendous Excitement!

As the Olive Branch was approaching town on Tuesday, a man was seen on board with a " big fiddle." At once, as by electricity, words flew among the unterrified, " Mungeo is coming-Mungen is coming;" and instantly there was a great

But alas! upon going on board it was found that the musician was no more, no less, than a Before M. B. Tracy, J. P. of Plain Township, Wood Co. harmless German on his way to fiddle at a Dutch Ball at Maumee. Then could be seen a sudden depression of nether lobials, and by listening attentively we could hear "d-n the dutchman," wish he had his fiddle stuck in his throat," and other equal expressions of kindness and regard.

The honest Teuton marched up the hill in blissful ignorance of the tremendous fluttering and excitement he had awakened in the hearts of the

-We understand that a road has been opened through a patch of ground where sleeps the the contest to come off at Sandusky City during heroic defenders of Fort Meigs. Will the Toledo papers look into this matter, and ascertain why the mouldering remains of those who so gallantly fought for liberty are to be used as St. Paul's Episcopal Church, of Maumee City, road ballast? It is disgrace enough that they should lie without a stone to mark the spot, without the additional indignity of their being jammed down by the whiels of farm carts .-

Will friend Higgins, within whose bailiwick, lies the patch of ground alluded to, respond ?--We hope he will be able to contradict the statement, but fear lest the rumor be true. It strikes us that there is land enough yet in Northwestern Ohio, for roads as well as tarms, without encroaching upon the burial spots of patriots, who shed their blood in defence of the soil which now covers their remains .- Toledo Blade.

The patriotism of our friends above quoted, is commendable, but facts are stubborn things, and with them we must now deal. The road leading up the river, to Gilead, pa ses through Fort Meigs, which lies but a few rods west of the corporation. We have no idea that it confined to the low, wet lands, causing little or no passes over the "mouldering remains of those who so gallantly fought for liberty." At all events, we don't believe the dead are used for 'road ballast," nor can we believethat their bodies are "being jammed down by the wheels of farm carts." That there "is land enough yet in North Western Ohio, for roads as well as farms, without encroaching upon the burial spots of patriots," may be genenerally true, but Col. Matthew Ward United States Senator, to that it is almost universally treated as false, is equally true. If our friend of the Blade will refer to the history of Lucas county, and then turn to the county map, he will see that if we have once sinned, Lucas county will have many sins to answer for. In every instance, Govern ment is most at fault. The lands comprising that almost one hundred persons were out. They all of these sacred spots have been sold the same as other public lands, and Ft, Meigs is now owned by at least two different persons. Michael Hayes ownes one part of it and another part is owned by some eastern speculator. To have avoided the fort in building the road running west from this place, would have greatly increased its expense and affected its convenience to the public injuriously. The main part of the Fort is not inclosed, and its owner will neither protect it nor dispose of it at a fair price. Our town authorities would probably purchase the Fort grounds and protect them, if the price asked PERRYSBURG PLANING MILL was not too extravagant. This should be done, and the State should aid in the work. It is not a matter which requires a great sacrifice at the hands of the people of Perrysburg alone. We are willing to do a generous part, Will the State bear its proportion of the burthen?

A SINGULAR CASE .-- The News, published in Savannah, Georgia, says, "One of our physicians has handed us the following extract from a letter written to him from a professional brother in the upper county, describing a somewhat singular case, we believe, of rare occurrence in surgical

Some weeks ago he commenced increasing in flesh very rapidly, and gained 1 1-2 pounds per day; then it was found he gained a little over two pounds per day.-Last week he died suddenly in his chase, I think have too much desire for my own credit to use one pounds. In the SCANDINAVIAN VEGETABLE BLOOD PILLS are united the three great medicinal properties which Physicians have heretofore tried in vain to combine in one preparation. They relieve the bowels, purify the bile and the blood, and invigo-rate the constitution, at one and the same time. To this fact, all who try them will subscribe. The ab-sence of nunerals, and of every stupifying drug, renders them harmless, even to the most delicate female, or the feablest child. No one can doubt their superiority after one single trial—they are not only better, but, in fact, cheaper than any other Pills, for it takes a less number of them to make a better effect.

Price of the Scandinavian Blood Purifier, \$1 per bottle, or \$5 per half-dozen. Of the Scandinavian Blood Pills, 25 cents per box, or 5 boxes for \$1.
